Why: Policy Meeting –Concentrations on Advertising

What:

The committee looked at Palmer Public Schools Advertising policy to have a starting point of what VHS may consider as an advertising policy. Ross Hill reported on what some schools in the Black Diamond Conference, VHS is a member, do. Of the schools called no one had a written policy but did not allow alcohol and drug advertising.

Concern was discussed about acts of nature, accident, or vandalism to the signs.

The AD would meet with the sports that have signs presently to determine how they charge for making the signs and profits.

The committee had ideas of different packages for the signs as follows:

- A. Advertise at all sporting events
- B. Advertise at a sporting event in the Fall, Winter and Spring
- C. Advertise for individual sports

Basketball would be considered for both boys and girl, since the sign would not be up and down for each game but would be viewed by both sports.

Adjourned at 7:58 PM
